

## KEISER UNIVERSITY OTA PROGRAM OUTCOMES

**The Accreditation Council of Occupational Therapy Education (ACOTE) independently accredits all OTA programs.** In order to sit for the national boards (NBCOT) a candidate must evidence graduation from an accredited program. In 2016-17, all campuses offering OTA transitioned into individual accreditation through ACOTE.

### Outcomes table report:

**Number Admitted:** The OTA program offers three admission cycles every calendar year in January, May, and September. Once all general education pre-requisites are completed, the program requires 16-months for completion. The number admitted in one year will become graduates in the following year.

### Number of Program Graduates and Graduation rate:

The OTA program graduates three cycles of students a year in April, August, and December. This number includes those admitted who may have failed a course yet return to complete and graduate within 150% of the required time. For the most recent year, the graduate data remains pending total results. Results currently displayed as a projection of the current year listed.

### Number who took and passed the NBCOT®

The OTA program maintains internal data on all students. As the program recently transitioned into independent campuses, these numbers may not reflect the statistics provided by NBCOT®. NBCOT® continues to report umbrella results encompassing several campuses, while we are reporting individual campus pass rates. For the most recent year, the NBCOT® data remains pending total results; current pass rates to date are reported here. *Those numbers are italicized to demonstrate their fluctuation.*

**Job Placement rate:** Outcome data reflects an academic year inclusive of a 6-month post-graduation period allowed for employment.

### Daytona Campus Campuses appear in alphabetical order

Year	Number admitted	Number of Program Graduates	Graduation rate	Number of graduates who took NBCOT exam	Number of graduates that passed the exam	Percentage of graduates that passed the exam	Job placement rate
