	73.1%			71.4%			*Pending*		

Outcomes Table Definitions and Benchmarks

Definitions:

Graduation Rate: The percentage of students who matriculated in the first technical course in the program after the add/drop period and who complete the program. Example: 24 students start the program together and are projected to graduate together but only 22 students graduate, with 2 students failing a course. The Graduation Rate for this cohort would be determined by 22÷24=92%. (Reference: CAPTE PTA Annual Accreditation Report Instruction)

First-Time Licensure Exam Pass Rate: The percentage of graduates who take and successfully pass the National Physical Therapy Examination (NPTE) on the first attempt. Example: 22 graduates sit for the exam, 21 students pass the exam on the first attempt. The First-Time Pass Rate for this cohort would be determined by 21÷22=95%. (Reference: CAPTE PTA Standards)

Employment Rate: The percentage of graduates who sought employment that were employed (full-time or part- time) as a physical therapist assistant within 1 year following graduation. Example: 24 students graduate, 23 sought employment but only 22 found full or part-time jobs. The Employment Rate for this cohort would be determined by 22÷23=96%. (Reference: CAPTE PTA Standards)

Ultimate Licensure Exam Pass Rate: The percentage of graduates who take and successfully pass the National Physical Therapy Examination (NPTE) regardless of the number attempts. Example: 22 graduates sit for the exam, 21 students pass the exam on the first attempt and 1 student passes on the second attempt. The Ultimate Pass Rate for this cohort would be determined by 22÷22=100%. (Reference: CAPTE PTA Standards)

2-Year Average: The 2-year average for graduation rate and employment rate represents cross cohort calculations for the current and previous year based on Winter, Summer, or Fall cohort. (Reference: CAPTE PTA Annual Accreditation Report Instructions). The Ultimate Licensure Pass Rate 2-Year Average is determined by using the following formula:

$$\frac{(A*X) + (B*Y)}{(X+Y)}$$

A = ultimate pass rate of program for graduation year 2019   X = number of students in graduation year 2019 who took the NPTE
B = ultimate pass rate of program for graduation year 2020   Y = number of students in graduation year 2020 who took the NPTE

Defining Graduating Cohorts:

COHORTS	Start Date Major	Graduation Date	Example: 2019
Winter Cohort	May previous year	April current year	Start May 2018, Graduate April 2019

Summer Cohort	August previous year	August current year	Start August 2018, Graduate August 2019
Fall Cohort	January current year	December current year	Start January 2019, Graduate December 2019

Benchmarks:

1. Graduation Rates are at least 60% averaged over 2 years. The two-year Graduation Rate for each cohort must be at least 60%. **2. Ultimate Licensure Pass Rates** are at least 85%, averaged over 2 years. The 2-year Ultimate Pass Rate for each cohort must be at least 85%. **3. Employment Rates** are at least 90% averaged over 2 years. The 2-year Employment Rate for each cohort must be at least 90%.

Note: Items in red are below the CAPTE Benchmark. (Reference: CAPTE PTA Standards)
