

For 40 years, Keiser University has been a **talent development leader** providing over 100 doctoral through associate degrees in workforce shortage areas in **Florida's targeted industries** including the life sciences such as nursing and physician's assistant; information technology and management information systems; logistics and distribution; and defense and homeland security with degrees in cyber forensics and information security.

Sixty-six percent of graduates complete degrees in the **STEM and healthcare fields** annually and the student body is comprised of **70% women**. The average age of students is 27; they are **adult learners**-- who are often parents and working full- or part-time.

The "students first" philosophy combines **soft skills**, leadership preparation, financial literacy, student support services including tutoring, writing and math labs, monitored learning gains, and convenient scheduling options for working adults to attend day, evening, and / or a hybrid combination of online classes.

KU students pursue **workforce-demanded degrees** for a competitive edge in career advancement, to gain a new or specific career, provide for their families, become leaders in their communities, and contribute to the global economy.

Seen as an **innovator**, Keiser University, in partnership with **over 1,000 industry leading advisors**, works with employers to bring customized training to students at their jobsite, online, and at its 19 Florida campuses and internationally.

Keiser University is a vital educational resource and economic driver in Florida. As the third largest private, not-for-profit, Level VI SACS accredited University with 20,000 students, 3,800 employees and 66,000 alumni, its annual economic impact is over \$3 billion.

KU is the 2nd largest producer of associate of science nursing degree graduates in FL and 6th in the nation.
