PROFESSIONAL LICENSURE DISCLOSURE STATEMENT

The doctoral program for **entry-into-practice nurse anesthesia (DNAP)** at Keiser University (KU) focuses on preparing registered nurses with a bachelor's degree to become Certified Registered Nurse Anesthetists (CRNA). It is distinct from the doctoral completion program (DNAPc), which is offered to licensed nurse anesthetists who hold a master's degree prior to enrollment. This disclosure is strictly limited to KU's determination of whether the **DNAP** (hereafter referred to as the "Program"), if successfully completed, would be sufficient to meet the educational requirements for licensure or certification in a State, as defined by 34 C.F.R. § 600.2.

KU's DNAP meets the educational degree completion requirements for licensure in the state of Florida as a CRNA and the designated states below as a nurse anesthetist. The program is accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs (COA), a specialized accrediting body recognized by the U.S. Department of Education and the Council for Higher Education Accreditation (CHEA).

NOTE: **This disclosure does not provide any guarantee that any one state licensure entity will approve or deny application for certification or professional licensure.** Furthermore, this disclosure does not account for changes in state law or regulations that may affect your application for certification or licensure that may occur after this disclosure has been made. If your career plans include pursuing professional licensure or certification in your chosen field, it is important to become educated on the credentialing requirements of the state in which you hope to practice by contacting the state's licensure entity.
