Dear Mr. Alter:

We are very proud of our long-term partnership with Keiser University. We also work very closely with law enforcement throughout the state. These partnerships are critical to our efforts as we employ new academy and criminal justice graduates and retired law enforcement officers. Keiser graduates are always well-prepared for the challenges present in the security field.

Allied Universal's Florida Region employs over 20,000 Florida Licensed Security Officers; over 3,300 hold Armed Licenses. Our armed security officers work in high-profile locations, including DHS-designated critical infrastructure sites. These locations are as varied as Public Transportation, Healthcare, Courts, Utilities, Ports, Airports, Residential Communities, Education, and many of our Sheriff's Offices. Over 100-armed Custom Protection Officers® are assigned to Keiser, Southeastern, and Everglades Campuses.

Through the Florida Department of Management Services' State Term Contract, we employ over 200 armed officers at Florida State and local government facilities. Among our major armed contracts, we serve Metro Dade Transit and the South Florida Regional Transit Authority (Tri-Rail).

With the alarming trend in active shooter incidents, enhanced training for armed officers has never been more urgent. Our internal training team is constantly working on the development and implementation of effective programs to prepare our officers for these situations.

Should the University implement the proposed KU CH Virtual Simulation Training System, we are committed to partnering with your team to promote and use the tool to improve training and enhance the safety of our communities.

I appreciate your consideration,

Sincerely,

Paul Burbridge

Vice President
