Re: Grant Funding / Simulation Training System

To Whom It May Concern:

This letter shall serve as Cape Coral Police Department's formal support for Keiser University's pursuit of grant funding for a simulation training system.

Keiser University has been a valued partner with our agency for many years. The Cape Coral Police Department has hired Keiser graduates and encouraged current employees to pursue higher education at Keiser University.

The prospect of our staff utilizing the equipment and technology sought by Keiser University is encouraging and welcomed. Opportunities for advanced training in law enforcement are pivotal in today's world to develop and maintain public trust.

This project will be beneficial to Keiser University, all law enforcement agencies in Southwest Florida, and the communities they serve.

Should you have any questions, please do not hesitate to contact my office.

Sincerely,

A handwritten signature in black ink, appearing to read "Anthony Sizemore". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Anthony Sizemore
Chief of Police
