Creative Research, LLC has been in operation in Florida for close to 30 years (formerly as Creative Tech, LLC). We started out providing technology and cybersecurity consulting services to the healthcare industry, and then branched out to a wider range of corporate clientele, and currently serve government agency clients in the areas of software development, cybersecurity, strategic planning, and research.

Creative Research, LLC has been hiring students and alumni from the Keiser University Sarasota Software Engineering Computer Information Systems, and Cybersecurity programs for close to 7 years now. In fact, one of those alumni has been working for us for close to 7 years, and another has been working for us for close to 4 years. During that period members of our staff have served as Advisory board members for those programs. And we just hired another one in the past 12 months.

We are always on the look out for top Keiser University Sarasota students to hire, in the future, from the Computer Information Systems, and Cybersecurity programs. Keiser University Sarasota has been very supportive of making sure the students in the Computer Information System and Cybersecurity programs get the training that is relevant to being productive and value adding professionals on our teams.

Cordially,

Sandra Murphy  
Managing Member-Owner
