Dr. Karen Steverson
University President
Keiser University
2400 Interstate Drive
Lakeland, Florida 33805

Dr. Steverson,

Please accept this letter of support for Keiser University, which is seeking funding from the Office of Policy and Budget to purchase the MILO Range M-SATS training simulator for 18 campuses throughout Florida. This would be an excellent opportunity for the University, its students, and local law enforcement.

As a long-time advocate for training initiatives for excellence in the criminal justice profession, I see how acquiring this equipment would be an excellent opportunity for the University and the law enforcement community to learn and collaborate, which will enhance the student learning objectives, as well as overall professionalism. Offering to assist local law enforcement would both provide an opportunity for police officers to make better decisions and give critical feedback from trained instructors who have already integrated simulator-based training in other environments.

We are pleased to support this excellent opportunity for Keiser University and the potential partnerships and training made available to our officers. As a small police agency, we do not have the financial or logistical resources to purchase an item of this magnitude, and we look forward to working together with them in the future.

If you have any questions, don't hesitate to contact me at Dogden@town.windermere.f.us.
