

# WINTER HAVEN **PUBLIC SAFETY**

Office of the Public Safety Director

Dear Ms. Steverson,

Please accept this letter as my personal support for Keiser University's intention to purchase and implement the MILO Range M-SATS simulator for situational awareness, use of force, and tactical judgment training system.

The value to have students who are pursuing a future in law enforcement, whether CJ, Crime Scene, Accounting, IT, or Cyber Forensics is tremendous and can only serve to better prepare for future careers in the Criminal Justice system. Additionally, this would be of great value to the Winter Haven Police Department for training and development.

I would like to ask that great consideration be given for funds to assist Keiser for the purchase of these simulators for the Lakeland campus.

With more than five years of continued work with your office and Keiser University as a whole, I am confident that this purchase would be of great benefit.

Sincerely,

Charlie Bird  
Director of Public Safety  
(former Chief of Police)  
City of Winter Haven, Fl.
