To Whom It May Concern:

New ReGeneration Orthopedics of Florida are based in Sarasota, FL. We utilize the Auditorium at the Keiser Universities in Lakewood Ranch, Tampa, Clearwater, Lakeland and Ft Myers. Our doctors are giving seminars on Alternatives to Surgery using your own Platelet and Stem Cells. The Keiser locations have been very instrumental to our business and educating the population in the Suncoast area about the proper format and knowledge that one needs to make good decisions about healthcare. Since we are expanding our practice to Tampa it has been very important for us to hold these lectures in the surrounding areas to our main office in Sarasota. We would like the opportunity to make the students and faculty aware that the lectures are open to them and make our office a site for hands on training with live Fluoro and Ultrasound for Rad Tech's as well as Medical assistant training and/or Medical Office management. We currently employ 3 Keiser Graduates, myself as Practice Manager (obtained my second degree from KU), a Radiology Tech and a Medical Assistant.

We look forward to a long and lasting relationship with Keiser and hope that we will be able to get some graduates as staff members for our new location in the Tampa Bay/Clearwater area.

Thank you,

A handwritten signature in blue ink, appearing to read "Susan Dean", is written over a horizontal line.

Susan Dean
Practice Manager
