

Dear Students,

A new Student Portal has been created to access your records and establish a Keiser University Student Email Account.

The first thing you will need to do is register your account at our campus portal site. Once that is completed the system will create your email within 3 hours.

Then you will have all of your records at your fingertips. Your records will be available when you are.

Click on the <http://campusportal.keiseruniversity.edu> link to start the process now.

Easy to follow, user friendly set up instructions are in the links below

Your first “Sign In” will start creating your personal account that will be accessible to retrieve your grades and other important information.

<http://www.keiseruniversity.edu/student-help/student%20training%20ku.pdf>

You will love the new tools available to you at any given moment in addition to the “New” tools that were not available previously.

Second part is for accessing your student email.

Please note that the old Access Your Records link will no longer be available.

If you have any questions, please contact [cvportal@keiseruniversity.edu](mailto:cvportal@keiseruniversity.edu)
