To Whom It May Concern:

Keiser University has impacted my business by providing top notch graduates to an industry short on qualified applicants. As a member of the advisory board for over a decade, I always look first to Keiser for new employees. Keiser University produces hardworking, intelligent and industrious paralegals. I have had the opportunity to hire paralegals from other universities but have found their graduates to be sub-par in comparison to those produced by Keiser University. Keiser graduates manage to execute every assignment with the utmost proficiency and aptitude. They are extremely dedicated and supportive to our clients and their research and writing skills are exceptional.

In addition to hiring Keiser University graduates, I work closely with Keiser University to provide internship opportunities to its paralegal students. Intern responsibilities typically include clerical duties, as well as, drafting of legal correspondence and pleadings. These skills are crucial to becoming a successful paralegal.

I look forward to continuing to work with Keiser University to produce the best legal studies graduates in the Tampa Bay area.

Sincerely,

*Faith Z. Brown*
