We have had a professional relationship with Keiser University for approximately 8 months. During this time, we have served as an externship site for students in the Occupational Therapy Assistant (OTA) program, as well as served on advisory boards, and participated in job fairs. Keiser University is an important part of the community, as they have proven themselves to be a catalyst for change through their innovative programs and their hands on approach to learning.

Keiser University students have demonstrated to be professional, organized, and productive. The OTA students are engaged during the fieldwork (externship) time, accept feedback well, and exhibit a strong desire to learn.

We look forward to our continued relationship with Keiser University and the opportunity to hire their graduates.

Janessa Dominguez, M.S., BCBA

President/Clinical Director

Shaping Change, LLC.
