Dear Amanda:

We are very pleased to have a community partnership with Keiser University. Our relationship spans back over 30 years and has been greatly appreciated for so many reasons. My partnership began with Keiser when I was a student in the early 1990's and has continued all through my professional career and currently as the President of The Legal Group.

Keiser has been instrumental in providing our company with speaking engagements, workshops and teaching opportunities. The graduates have been some of our best candidates and most successful placements. We are a legal staffing Firm and we have been fortunate to have worked with a number of Keiser graduates and have placed many in paralegal and other legal positions. We have enjoyed participating in the local job fairs and alumni events in addition to inclusion of many on campus events. It is our pleasure to work side by side with Keiser and which has benefited and promoted our company greatly. You have a great team and we are always looking for new and innovative ways to continue the professional relationship that we have been so happy to have with KU.

Very truly yours,

Amy Levin Soble
President
