To Whom It May Concern,

Keiser University has been and continues to be an asset to the Countryside High School community for a multitude of reasons. Keiser University is an integral partner for our school. They have been a member of our Institute for Science, Technology, Engineering, and Math (ISTEM) Advisory Board for the last five years. They sponsor our ISTEM Senior Student of the Year every year at our senior banquet and have contributed financially to our banquet in the past. They have provided field trip opportunities, both on-campus and off-campus for students and programs. We have also had multiple students decided to attend Keiser University, based off of their experiences in attending these field trips. Our relationship with Keiser University has strengthened over the years and our hope is that we continue to build on this partnership in the future for the benefit of Countryside High School, Keiser and for our community.

Regards,

**Kristen Clausen
Assistant Principal
Countryside High School**
