TO WHOM IT MAY CONCERN:

Keiser University is important to our community for several reasons. Our relationship with the University and the staff members certainly has been a positive impact for our office! I am the office manager at a solo internist doctor's practice in Bonita Springs, FL. This doctor has been in practice for the last 12 years. Oftentimes, as in many offices reliable, hard-working employees are very hard to find. That is when I turn to Keiser for support and assistance. I can confidently say that whenever there is an urgent need to fill a position, I can always count on Keiser to back me up! The staff members are very eager to assist by sending resumes, and at times candidates to interview. The staff knows which candidates would best be suited for our office, which is a great advantage.

Keiser candidates are well trained, and very eager to learn! The externship program provides such a great opportunity for candidates to practice all the skills they learned in class in an actual doctor's office. Our staff is very proud to train Keiser candidates, and teach them the necessary skills for their chosen careers. Currently, our office has employed (2) full time employees from Keiser. So that when it comes to hiring candidates, Keiser will always be our first choice! We are very pleased to collaborate with Keiser and hope to continue our relationship for many years to come.

Sincerely,

Rose  
  
(office manager)
