

FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

To Whom It May Concern,

Keiser University is important to our community for several reasons. Keiser University prepares students for the real life workforce. Their students are taught the textbook knowledge necessary to earn their degrees, but are also prepared on how to apply that knowledge and skill on the field. Keiser University encourages their students to get involved in the community through volunteering. Keiser University provides an atmosphere where students and professors can bond and help students grow in their career well after they graduate.

I am a graduate of Keiser University's Sports Medicine Program. Through my degree and guidance from Keiser University I began working at The Ormond Beach Family YMCA. I am now the Wellness Director at the Ormond Beach Y and have the privilege of hiring other Keiser University graduates and taking in interns from Keiser. Being a non-profit charitable organization, we appreciate our dedicated volunteers here at the Y. We are very grateful to have interns from Keiser University help us in our mission to help the community through youth development, healthy living, and social responsibility.

We also have the pleasure of hiring graduates from Keiser University. The Ormond Beach Family YMCA currently has five employees who are graduates of Keiser's Sports Medicine Program, including our branch Executive Director, Ricardo Shelton. I am personally grateful to have the opportunity to hire students from Keiser University here at The Ormond Beach Family YMCA. We offer "Evidence Based Health and Fitness Programs" at the Ormond Y. These are fitness programs that help prevent or alleviate the symptoms of diseases and illnesses such as; diabetes, multiple sclerosis, stroke, heart disease, COPD, etc. Since we have programs like this, we like to make sure that our personal trainers are highly knowledgeable, professional, passionate, and empathetic about their career and their clients. I am confident when I hire personal trainers who are graduates of Keiser's Sports Medicine Program, because I know that they are well trained in the medical fitness field. The Ormond Beach Family YMCA and I look forward to continuing our partnership with Keiser University.

Sincerely,

Carlo Solorzano
Wellness Director
