To Whom It May Concern,

Keiser University is important to our community for many reasons. My relationship with Keiser started 3 years ago, and has been very beneficial to my business. I am a financial advisor for a local firm in Clearwater, FL, and we have held a variety of financial education workshops at the Clearwater campus. These workshops have helped us to provide financial education to many people in the community. We have had nothing but positive feedback with respect to the Keiser campus, students, and staff. Everyone we have encountered on campus has been extremely kind, courteous, and helpful. I would recommend Keiser University to any local business looking for a clean, comfortable, and state of the art facility.

While my experiences have not introduced me to many of Keiser's students or graduates, there is always a positive atmosphere on campus. Our workshops take place in the evening, and there are always other classes being held or students studying on campus. It is obvious that Keiser students take pride in their studies. I would be extremely open to any Keiser graduate if they applied for a position at our firm.

Regards,

Roy Claggett
