

To Whom It May Concern;

As an HR Executive and a Board Member for the local SHRM Chapter – HRABC, I depend heavily on local partnerships that help benefit our members and the community at-large.

Keiser University's career-focused programs align perfectly with the needs of the community and business overall. Of particular interest to our organization, are students graduating from any level of Information Technology programs.

Recently, Keiser was very gracious to allow us space to provide test prep and study resources to a group of HR Practitioners seeking to gain certification. HRABC is a not-for-profit organization and this program was made possible by Keiser's commitment to the community and gracious hospitality.

Sincerely,

Marina Konchak, SPHR, SHRM-SCP

Senior Managing Director – HR
