

Abi's Place is dedicated to building the skills of children with autism and complex disabilities to create a foundation for life-long success through the delivery of highly individualized education, outpatient services, community involvement and lending support to families.

Dear Violet Nikolici and Keiser University,

Abi's Place would like to take this time and opportunity to thank Keiser University for your partnership over the past ten years. It has simply been an honor to work side by side each other to help develop pediatric therapists and influence the community. Our relationship has grown throughout these years much like your organization and campuses. We are proud to witness your growth in programs, geographical outreach, and philanthropy.

Abi's Place has had the privilege to mentor and guide your students in our rewarding industry. Pediatric occupational and physical therapists are in high demand but must have a special passion and wide range of knowledge to work with our population. Remarkably, Keiser has developed these young professionals within the special needs community successfully each year. Many have become our friends, colleagues, or recommendations.

Beyond developing professional graduates and skilled employees, Keiser University has influenced young adults to impact important causes in area thus creating well-round individuals. Proudly, the occupational department has joined Abi's Place in several fundraising efforts in the tri-county area. Together, we have raising funds for Autism Awareness and broke barriers in classrooms through walks, flash mobs, and toy drives.

Again, thank you for working with us all these years. It has been a delight developing relationships with the university, your staff, and your students. We continue to look forward to our collaboration and partnership for many more years to come.

Sincerely,

A handwritten signature in black ink, appearing to read "Danielle Zimmerman".

Danielle Zimmerman
