Fort Lauderdale, FL 33309

4/19/18

To Whom It May Concern,

We are writing to express our gratitude for the kindness extended by the Keiser University community to the students and staff of Unicorn Village Academy over the past two years.

Unicorn Village Academy (UVA) provides academic and vocational programming to individuals with neurodiversities preparing them for greater independence in the community post-graduation. A vital part of this is our Life Skills program, which is held on the Keiser University Fort Lauderdale campus. Keiser University has graciously allowed us to use classrooms and campus amenities affording our students a college campus experience they would otherwise miss.

As a small nonprofit, UVA relies heavily on the support and generosity of the community. The Keiser University community has been a great friend and contributor to our success. Additionally, our school has benefitted by the insight and expertise of a student intern from your OTR program. Based on the outcome of our experience, we would readily welcome additional interns.

We look forward to continuing this collaboration well into the future, providing opportunities to enhance our students' growth and achievements.

Respectfully yours,

Ronye Robinson
Program Coordinator

Evelyn Falconer
School Principal
