

To Whom this May Concern,

Keiser University has been an intricate and vital asset in helping the students at Lake Gibson High School. They have shown support by funding numerous academic events through sponsorship of food and beverage, as well as educator appreciation functions. Keiser has also shown support through face to face classroom presentations concerning post- graduation college and career choice, preparation, and future lifestyle planning. Furthermore, the Keiser family continues to provide hands on enrichment opportunities for our career academies in the form of field trips to the university that display real time, real world college course knowledge and application.

We here at LGHS appreciate all of the support and sponsorship that Keiser has provided and continues to provide for our students. Because the university has had such a positive and profound impact on our campus, they sit on our advisory board of our medical academy and are willing to provide any assistance necessary to insure that our students at LGHS have all of the support needed to promote college and career readiness!
