DORN J. BEDDOW  
PRESIDENT/FOUNDER  
239-349-0097

To Whom It May Concern,

It is a great honor I am able to have a firsthand experience of the incredible expertise of Keiser University programs, staff and benefits to this community and numerous others. Keiser has been in existence for over 40 years now and we are all blessed to have them here in Ft. Myers, Florida.

I personally sit on the Advisory Board for Criminal Justice and see firsthand the benefits the University brings to many Law Enforcement Agencies, Forensic Programs and the Community by the pristine education they bring to our professionals who graduate and work within our agencies.

I have also partnered with Keiser University in bringing the well-known scientist from the Netherlands who was instrumental in the APOPO program for all military to save lives of thousands in the detection of land mines and the safe removal. They supported the work and education of an Author, a Scientist, and educator by opening their doors and inviting in Law Enforcement Personnel, Search and Rescue, First Responders and other trainers from around the United States. That training and teaching is instrumental and will touch thousands of lives throughout the United States and grow from the small seed that was planted here in Ft. Myers, Florida at our Keiser University. Our trainers that were trained were from all over the corners of the United States so the education will grow in immense means.

Rarely do you find such cooperative and kind Administrators that reach out so strongly within their community.

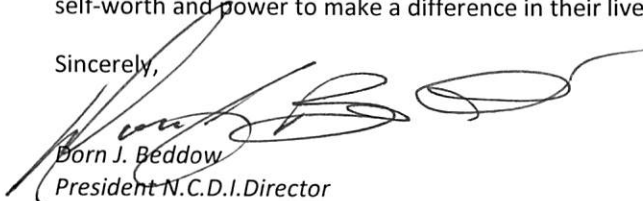

I have built my relation with Keiser in multiples aspects. My step daughter was a student and graduate in their medical program and has been working successfully for a local health care provider as a medical sonographer. She has a career and can be stronger for that with her children and my Godchildren.

I have built relationships with Keiser University in my first responder role as an arson investigator and as a search and rescue K9 trainer and handler. All complement one another and working together moves us forward in knowledge, abilities and partnerships that makes strength.

And finally, as the Coordinator to Fire/Safety at Lee County School District for over 11 years, it is without a doubt that the graduates, students, management and education of others from Keiser University is a benefit to all.

Thank you all for the dedication, not just to your jobs but to the passion of educating and giving others strength, self-worth and power to make a difference in their lives and others.

Sincerely,

Dorn J. Beddow  
President N.C.D.I. Director  
Southwest Florida K9 Unit  
Safety Coordinator Lee County Schools
