

FOR THE LIFE OF YOUR BUSINESS

April 18 2018

To Whom It May Concern, Keiser University

We are very grateful for the help Keiser University has given to SCORE to complete our mission. SCORE's mission is to foster vibrant small business communities through mentoring and education. We offer the support necessary to help small businesses thrive. We could not complete our mission without the help of Keiser University.

Keiser University allows us to use their facilities to give our workshops and further the education of small business owners. Without this great gift we would not be able to afford to put on our workshops and it would seriously affect the education of small business owners.

Also, dealing with the Keiser staff is a joy. They are always professional and helpful and they make our jobs easier. We have also been fortunate to deal with the students which has been an incredible experience. Score conducts mock interviews to help the students apply for their first jobs. I am always amazed by how professional they behave at the interview and the quality of their resumes. These students will be wonderful addition to the workforce and anyone who hires them is truly getting a wonderful employee.

Again, we would like to say thank you to Keiser for allowing us the privilege to work from there lovely facility in Fort Myers so that we can continue educating the small business community.

Sincerely yours;

A handwritten signature in cursive script that reads "Denise Czarnomski".
