Re: Letter of support for Keiser University

To Whom It May Concern:

Please accept this letter as our support for Keiser University. For many years, The Salvation Army's Health Services Department has valued a wonderful collaboration with Keiser and the students obtaining degrees in the health field. We have had the experience of extending our facilities and programs, as an externship site.

*The Salvation Army Health Services Department* provides homeless men and women with a “no-cost” safe and healthy environment to recover and heal from acute medical illnesses, post-operative care and chronic illness exacerbations. Medical care, housing, transportation and meals are provided at no charge while the client successfully recuperates and participates in his/her “Plan for Living” and progresses toward obtaining employment, income and permanent housing. Through on-site case management, clients who participate in our services can access the following in-house or by referral: Assistance finding permanent housing, vocational assessment for job placement, employment leads, life skill classes (budgeting, job interview skills, etc.) and counseling (domestic violence, mental health, addictions, spiritual, etc.) Our collaboration to serve the community, has provided the students with an array of experience and education, they can later utilize in their careers

We believe that the many years of collaboration between our organizations help to provide the needed services and care to individuals who would otherwise go without. As a community partner with Keiser University, we wholeheartedly support the students and staff of Keiser University.

Sincerely,

*Daisy S. Ellis*

Daisy S Ellis, RN BSN OCN
