To whom it may concern:

As a high school teacher who teaches Diversified Career Technology (DCT) Principles where students plan their career and need to research and make difficult decisions about college choices, Keiser University has been a phenomenal resource. Throughout the years, Seabreeze High School has been fortunate to have Regina Saldana, a Keiser Recruiter, visit our classrooms to inspire, educate and assist our students in transitioning from high school to college.

There are many choices for post-high school and because of the unique format of Keiser University, our community reaps the benefits of individualized instruction where education and businesses/employers enjoy a symbiotic relationship. Enabling students to become successful citizens through specialized education and viable employment makes Keiser University a valuable resource in our high schools and community that is everlasting.

Thank you for providing opportunities for our Seabreeze High School graduates. I truly appreciate your professionalism and support throughout the years and look forward to our continued relationship.

Sincerely,

Carolyn Abramski      X54654
