Dear President Tedros,

On behalf of the Mu Delta Sigma Alumnae Chapter of Sigma Gamma Rho Sorority, Inc. we would like to thank you and the staff of Keiser University, Fort Myers Campus, for your continuous support of our organization. The professionalism of your staff and faculty exceeds all expectations. The campus speaks of your desire to educate students at the highest level of academia. We look forward to further developing this relationship with Keiser University, Fort Myers, as we continue with our goal of "Greater Service, Greater progress" within the Fort Myers community.

It is the mission of Sigma Gamma Rho Sorority, Inc. to enhance the quality of life for women and their families in the U.S. and globally through community service, civil, and social action. Our goal is to achieve greater progress in the areas of education, health awareness, and leadership development. This correlates with the mission statement of Keiser University, which is to provide "to the community. This service includes community partnerships, involvement with various constituencies and various continuing education programs".

As non-for profit organizations, it is our duty to provide to our communities. With these ideals, we are able to make impossible things happen. The Keiser University Fort Myers campus has provided various avenues of success. We are excited to be in the midst of a growing organization.

Throughout our engagement opportunities with Keiser University, we have developed a wonderful relationship with the staff on sight. Specifically, Lu Ann Pigott. She has gone beyond our expectations. Her professionalism in her promptness and due diligence has increased our productivity in so many ways. For example, her consistency to accommodate our meeting spaces throughout the years with precision has enhanced our experience to coordinate our growing influence within our local and international community. As we progress to increase our membership, Lu Ann will be a driving force in our development.

Kind Regards,

**Asonté Boyd**
