Keiser University
Fort Lauderdale Campus
1500 N.W. 49th Street
Ft. Lauderdale, FL 33309

To Whom It May Concern:

I am a practicing attorney in Broward County for over thirty years. I am also currently the District Governor of the Rotary 6990, which covers Broward County, Miami-Dade County, Monroe County, and Grand Bahama Island. While I am not in the educational world, I do know that Keiser University has a positive effect on the workforce in South Florida. Keiser also gives back to the community in many ways. As District Governor of Rotary, I know that Keiser has allowed us to use their offices, both in Broward and Miami-Dade County, for Rotary events at no cost to the organization. I have had the opportunity to meet many people who have been affiliated with Keiser and find them to be of the highest moral character and extremely competent in their fields. In my office I also deal with people who have law degrees so I do not have the opportunity to deal much with graduates of Keiser, but I have been told by others with whom I have dealt, that they come into the workforce extremely well-prepared.

In short, Keiser has had a positive influence on our economy and community.

Very truly yours,
