To Whom It May Concern:

As the president of CareerSource Brevard (CSB) I would like to acknowledge the impact that Keiser University has made and will continue to make in Brevard County. Keiser University has served as an integral member of CSB. Colleen Browne, the Melbourne campus President, has served as a member of our board of directors and on the Industry Workforce Committee since 2005. The university has been a great support to CSB and its clients as an approved training provider.

We consider our relationship with Keiser University one that is truly invaluable. They have provided exceptional and highly-trained individuals and are responsible for adding to our workforce which directly supports our mission.

Their "Students First" approach to career education is a tremendous asset for the community. Their commitment to continuously monitoring trends in the workforce reliably ensures the degrees their students receive are in high demand. They have served as an incomparable source for providing medical, business, culinary, and technology training to individuals and businesses within the Brevard County area. Everyone here at CSB considers Keiser University to be a key contributor to our community's economic well-being.

CSB is proud to work with Keiser University and appreciates the impact they have made throughout Brevard County.

Sincerely,

Marci Murphy
President
CareerSource Brevard
