To Whom It May Concern:

We at Champion Home Health Care value our relationship with Keiser University and their graduates. We have contracted with Keiser graduates and felt they were well prepared and organized.

We have also participated in Keiser University's job fairs which provide an excellent talent pool of potential candidates. We look forward to any invitation to partner with them and create a seamless transition from school training to the workforce.

We look forward to continuing to foster the relationship we have with Keiser University and bringing their graduates on board.

Kind Regards,

Kristin Cruz
Caregiver Recruiter
