To whom it may concern,

**Keiser University has been such an influential community partner to the overall success of The Goodwill West Melbourne Job Connection Center and our Community.**

### Community Successes:

The Melbourne Keiser University and the Job Connection Center have been tremendously successful community partners for the last 4 years and because of this direct relationship the Job Connection Center and programs have benefited significantly. Keiser has participated in several Goodwill Job Fairs and has enrolled many of their students as candidates in Goodwill's Job Works 101 workshops. Due to the direct partnership with Job Fairs, the West Melbourne Job Connection Center has become more visible to not only Keiser University students, but also to Brevard County as a whole.

Furthermore, the Goodwill Job Connection Center has been in Brevard County for at least 13 years. Over 4 of those years I have personally noticed the elevation of the Center's status and overall success because of our affiliation with Keiser University. What Keiser has done, not only for their students but for the community is a continual effort of helping persons become employed with the jobs and Degrees of their choice. Also, Keiser connects individuals in the community to resources like The Goodwill Job Connection Center.

It is my pleasure to write Keiser University and its staff a letter of support and recognition it truly deserves.

Sincerely,

Keith Howell
