Keiser University
900 South Babcock Street
Melbourne, FL 32901

To Whom It May Concern,

REFERENCE: LETTER OF COMMENDATION

As the chairman of METCA and the pastor of Macedonia Missionary Baptist Church, it is my greatest pleasure to acknowledge Keiser University as a staple institution in our community. Keiser University is thoroughly engrossed in the community and has an impeccable assembly of staff and administrators who work hard to retain their status as a premier institution for higher education. An added benefit of Keiser University is their willingness to support community activities related to education whenever requested.

Keiser University should be proud of the professional staff that provides the educational services required of Brevard County's residents. We are especially grateful of Keiser's participation and support for our community programs during weekdays, after-hours and also on weekends. Recently, Keiser University opened its doors to provide after-hours FAFSA training for our College Prep Soarers (high school seniors) and also provided an information session on how to get into college to our small community group. Keiser's staff also allowed us to provide financial literacy training to our healthcare student candidates who are being processed for Keiser University enrollment. Without a doubt, Keiser University is community friendly.

We are extremely grateful for Keiser University's presence and activism in Melbourne, FL, and we pray that our relationship will continue to blossom over the years.

Warmest Regards,

Nathaniel L. Harris, Rev.
Chairman

Macedonia Education Technology and Career Academy (METCA)
