To Whom It May Concern,

Keiser University is important to our community because they train people for the careers that local businesses need. I have partnered with Keiser for the last 7 years. In that time, they have provided several well-trained employees for my home care agency. In my industry our care aides are our foundation and the face of our agency. We have strict standards on who we send into our client's homes and Keiser students have consistently performed well for us.

My organization has multiple sites throughout Florida and other owners have also had great experiences with Keiser students. In the last few years I have been on the Keiser University (New Port Richey campus) advisory board. This experience has shown me the professionalism and cooperation that the Keiser administration and faculty displays. These attributes are passed on to the students, who demonstrate them in their work performance.

I look forward to continuing and strengthening my relationship with Keiser University in the future. I feel that together with Keiser and other business leaders in the area, we can improve the lives of those in our community.

Thank you.

Paul Lallanilla, M.P.H.
