To Whom It May Concern,

My name is Shana Moore and I work for Computer Generated Solutions. In my role as Recruiter, I am responsible for filling internal technical support and customer support positions in a high volume, fast-paced environment. I became familiar with Keiser University in 2017. Since then, Keiser University has been a valued partner to our organization by referring qualified individuals for our open positions.

I have had the pleasure of working with Keiser University students, faculty, and staff who have welcomed us on campus and accommodated our every need. Keiser University students and graduates enter the workforce with the highest level of education, skills, and professionalism we expect. I support Keiser University and look forward to working with them again in the near future.

Sincerely,

A handwritten signature in black ink that reads 'Shana Moore' in a cursive script.
