

To Whom It May Concern:

Keiser University is important to our community because it provides a platform to serve adult learners seeking a career focused education. This is of vital importance considering that 85% of the American public are unhappy on their jobs. Too many people are spending 8 hours a day just doing time unfortunately.

When I was initially approached about being a business advisory board member I viewed it as an opportunity to give back to my community by partnering with a forward-thinking institution with a student first philosophy. I really didn't know that much about the programs or history of this fine institution. But when I attended the 40th Anniversary celebration at the flagship campus in West Palm Beach and had an opportunity to meet Chancellor Arthur Keiser, Ph.D., and President Dr. Gary B. Vonk, I was beyond pleased with my decision.

The growth and accomplishments that Keiser University has attained in such a short period of time is truly impressive. To be an accredited institution with programs in business, criminal justice, health care, technology, hospitality, education and career-focused general studies, with a competitive athletics program is no small order by any standards.

As a 12-year State Farm Insurance business owner and a certified speaker, trainer, and coach with the Les Brown Maximum Achievement Team, I really enjoyed the opportunity to speak to the students for the Leadership Distinction Program. Getting the Interview went over well with the students and I look forward to future LDP presentations.

In closing, I'd really be remised if I didn't say something about the state of the art campuses and professional business and/or meeting rooms. Recently I had an empowerment session called "Time 2 SHINE" at the Pembroke Pines location that was attended by business owners, community leaders, students and staff. The event was a success and I am truly blessed to have access to a university that offers global education locally.

Yours in Excellence & Inspiration,

Anthony Henderson
