

Healing the way nature intended

KeriCure Samples for Animal Use

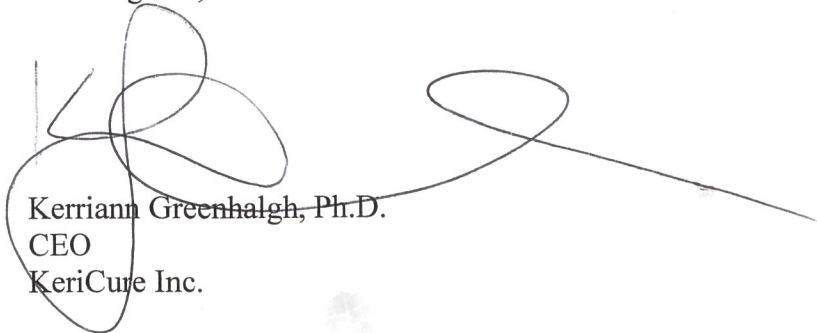

To Whom It May Concern,

My name is Dr. Kerriann Greenhalgh, and I am the founder and CEO of KeriCure, Inc. Our products are designed, developed, and manufactured in Tampa, Florida. Our mission is to provide a natural way to soothe, seal and heal, though the KeriCure product lines go far beyond cuts and scrapes.

KeriCure is proud to be certified by the Women's Business Enterprise National Council (WBENC). This honor is awarded to privately owned businesses that are at least 51% owned and controlled by one or more woman. WBENC certification is offered through the Center for Women and Enterprise and is the nation's leading independent certification of women-owned businesses.

Keiser University provides a significant opportunity for our community by helping students become professionals. It is critical for students when they leave the educational environment that they have the tools and confidence necessary to enter into the workforce and become critical influencers within their discipline. I had the pleasure of working with a Keiser University graduate in the concept of my brand. This graduate showed a strong educational foundation and professionalism, setting a standard for those who followed. I look forward to seeing what the future holds for Keiser University.

Best Regards,

Kerriann Greenhalgh, Ph.D.
CEO
KeriCure Inc.
