Leslie Kristof, Campus President  
Keiser University  
9400 SW Discovery Way  
Port St. Lucie, FL 34987

Dear Leslie,

Please accept this letter as feedback regarding the ongoing relationship which Martin Youth LEADERShip has with the Port St. Lucie campus of Keiser University. As the Coordinator of the Martin Youth LEADERShip (MYL) program, I have had the pleasure of working with several of your staff members over the years in support of MYL, which directly enhances the leadership and career skills of up to 40 students annually.

In particular, I have worked with Leslie Haviland, Director of Student Services at Keiser. Ms. Haviland has been an active member of our umbrella organization and primary funding source, the LEADERShip Martin County Alumni Board, for the past seven years. As such, she has guided MYL through community partnerships, sponsorship opportunities and direct funding from Keiser. As a former President of the Board, Ms. Haviland exemplified and helped to redefine the Board's main function: to attract volunteers and to sponsor or provide leads on sponsorship for Martin Youth LEADERShip.

I have also worked with Linda Fitzpatrick, Senior Director of Community Relations. Ms. Fitzpatrick has annually chaired a Career Day for our students, giving them valuable insight into the processes of resume writing, job interviewing skills, professional dressing and navigating the internet and social media during the job search process. These are much needed skills for today's youth, and would not be possible without Keiser's ongoing commitment to Martin Youth LEADERShip.

We are grateful for the past support which Keiser University has so graciously provided on behalf of our local youth, and we look forward to many more years of a productive partnership with Keiser. I am confident that the graduates of both Keiser University and Martin Youth LEADERShip will continue to leave positive and long-lasting professional benefits on the Treasure Coast.

With regards,

Jeanne Dunn, Coordinator  
Martin Youth LEADERShip
