To Whom it may Concern;

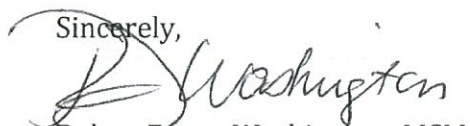

Keiser University in Sarasota has been a supportive partner of the Neuro Challenge Foundation for Parkinson's (NCF). NCF is a local non-profit organization that is dedicated to improving the quality of life of people with Parkinson's and their caregivers. We provide monthly support and education programs, community resource referrals and individualized care advising at no charge to more than 2,000 people each year in Sarasota, Manatee, Pinellas, and Charlotte Counties.

We are a small but mighty, and very important, organization that is able to achieve our mission thanks to our community partners - partners like Keiser University. Keiser University has hosted Neuro Challenge meetings which allows us to reach and serve more communities without the cost of having to rent space.

Keiser University's medical programs prepares their students to work with the Parkinson's population. Something we are most grateful for. I am proud to say that NCF's Program Manager is a Keiser University graduate.

We are so grateful for the support we have received, and will continue to receive, from Keiser University. Please do not hesitate to contact me with any questions.

Sincerely,

  
Robyn Faucy-Washington, MSM  
Executive Director
