To Whom It May Concern:

Please accept this letter of support for Keiser University. Keiser is an important part of our community in Palm Beach County. Keiser provides educational opportunities to adults of all ages in essential areas critical for the continued growth and vibrancy of this county's economic resources. Graduates of Keiser University are well equipped to take their place as leaders in all areas of study. The integration of community leaders in advisory capacities sets Keiser University apart as unique in in post graduate education and preparation for careers.

The Palm Beach Habilitation Center works with individuals who have significant disabilities to assist them in being as integrated and independent as possible in the community. The Center was established in 1959 and has partnered with Keiser University since 2013 to provide Clinical Practice and Fieldwork Experiences through the Occupational Therapy Assistant (OTA) Program. The Center provides the opportunity for students to learn how OTA services can be applied in non-traditional settings in the community. I have served on the OTA Advisory Committee since 2015 and have seen first-hand their commitment to tailor the OTA program to meet the needs of the community.

Through the affiliation with Keiser, I have found the students to be well prepared academically and emotionally to interact in a professional manner. Keiser students are engaged with the programs and understand their role working in a professional setting. The Keiser students provide valuable insights through their questions and observations while participating in their fieldwork experience. They have the organizational and time management skills necessary to make them a successful employee and an asset to the organization that hires them.

If you need any further assistance, please feel free to contact me. I can be reached at 561-965-8500.

Sincerely,

David Lin,
Chief Executive Officer
