Jack Zeltzer, MD

Tenna Wiles, **Chief Executive Officer**

To Whom It May Concern:

The Palm Beach County Medical Society is a member organization for physicians with over 1500 members which includes medical students, residents, physician assistants and of courses physicians. We will be celebrating our 100 year anniversary in 2019.

Keiser University has been a part of our Circle of Friends family since 2011. Elizabeth Houlihan and Barbara Jacobowitz are my two main contacts at Keiser and they are both extremely engaged and a pleasure to work with. The Society has hosted several events and attended many programs at Keiser over the years and they have seen to every detail. Ms. Jacobowitz was honored in the Outreach/Prevention category at our 15<sup>th</sup> Annual Heroes in Medicine luncheon that was held on April 20<sup>th</sup> 2018 at the Kravis Center for Performing Arts.

Keiser University is an invaluable resource for the Medical Society and our 1500 members and their staff. We are grateful to be working with them hand and hand to better serve our members and our community.

Sincerely,

*Deanna Lessard*

Deanna Lessard  
Director of Member Services
