

Professional Fire Fighters of Pembroke Pines IAFF Local 2292

President Piotr Lechowski,

On behalf of the men and women of Pembroke Pines Local 2292, I would like to take the time to thank you and your University for the first class treatment you have provided our organization.

Last year we came in and spoke with Ms. Matty Curbelo, and since the initial meeting she has taken great pride in making sure that our requests are met. She has provided us options with classroom sizes, as well as areas to provide refreshments to our members during our meetings. After the event she follows up with a quick email or text to make sure we had no issues.

It is employees like this, that lead organizations to the next level of customer service. In the Fire Service this our number one priority. It makes me proud to deal with individuals that take ownership. I have expressed our gratitude to Ms. Matty Curbelo but felt as if our organization owed her a little more recognition.

Please feel free to share this quick Thank you with her, and consider it as an accommodation letter.

**As always proud to serve our community and your University.
Thank you, Keiser University**

**Proudly,
Paul Smith
President of Local 2292**
