

Dear Dennis Ferraro:

I am a Keiser University Radiologic Technology graduate and an Advisory Board member. I feel that Keiser University prepared me for the workforce more than adequately as I was confident with my knowledge and learned skills. I am currently a CT technologist and am working on my Quality Control certification.

Keiser University has been an incredible asset to our Company. We have had the pleasure of working with numerous students at both our Orlando office and Maitland office. Due to their training and performance ability, we have hired many graduates from the Orlando Campus as Radiography Technologists and they have exceeded their responsibilities and moved on to be outstanding Mammography techs, CT techs and MRI techs.

We here at Sandlake Imaging look forward to continuing our relationship for years to come with the Keiser University Orlando Radiologic Technology program.
