

850-999-2651-p 2418 E. Plaza Drive Tallahassee, FL 32308

To Whom It May Concern:

Keiser University is important to our community because the curriculum is designed to provide training to individuals who are seeking careers that employers in our community are looking for. Our medical Office, Tallahassee Perinatal Consultants is an externship site for Keiser's Medical Assistant Program. We have been in Tallahassee for almost a year now and have had two students do their clinical rotation here and we are excited to say that we hired both. The professionalism, work ethic, computer knowledge, patient care, various clinical/medical techniques that they possess has made it easy for us to train them. They are proud to have been given the experience and even prouder to start their career with us. We are honored to be a site to help students gain the experience needed to launch their careers. As we grow, we will turn to Keiser University for our clinical staff.

Yours truly,

Jonathan Brantley

Office Manager

Tallahassee Perinatal Consultants
