To Whom It May Concern,

The Clearwater Chapter of AAPC is part of a network of more than 500 chapters across the United States, all within the umbrella of a non-profit organization, the American Academy of Professional Coders Chapter Association.

For several years Keiser University Clearwater has provided a room for our chapter meetings. This allows our members to obtain low-cost or free CEUs, network with peers, learn of jobs or advertise job openings, and promote the health care industry locally. The University Staff always do their best to accommodate our needs.

It is encouraging to know that Keiser's commitment to continuing education goes beyond their student base and reaches the community as a whole.

We look forward to continuing our partnership in the future.

Respectfully,

Angela Sims

Angela Sims, CPC, CRC
AAPC Clearwater Chapter President
