

To Whom It May Concern,

Keiser University is important to Advent Health Palm Coast and our community. Our ultrasound department consists of fourteen diagnostic medical sonographers who have all graduated from Keiser University's Ultrasound program. For over twenty years we have been an externship site for students at Keiser. Keiser has always produced top-notch graduates who excel in our department.

We have multiple Advent Health locations throughout central Florida, including hospitals and outpatient centers. Many of the employed sonographers are graduates from Keiser's program. Our department has always benefitted from having Keiser students on clinicals with us. They are always professional, hardworking, compassionate, and dedicated.

With Gratitude,

Mary Fuquay, RDMS
