RE: Keiser University Letter of Support

To Whom It May Concern,

Keiser University is important to our community for several reasons. First, Keiser University has served our community for over 43 years, and we value our relationship. Our collaborative partnership provides an opportunity to change and enrich lives, as Keiser University continues to provide a foundation of educational excellence throughout our communities. Second, our diagnostic imaging students are the future of our Imaging Department. We have hired several Keiser graduates over the years and continue to hire students from each graduating class. Third, Keiser University is known for graduating high quality students pertaining to professionalism, organizational skills, time management and productivity. Basically, Keiser new grads are ready to work independently from day one of employment.

Please feel free to contact me directly with any questions or concerns regarding this letter of support.

Best regards,

Nicky E Creech

Executive Director Imaging Services
