

To Whom It May Concern,

It is with great honor that I write to you this letter of support for Keiser University. I graduated from KU in 2011 with a degree in Diagnostic Medical Sonography. Since the first day as a KU student and now a decade into my career, I am able to recognize all of the opportunities this institution has contributed to not only myself but the community over the years. Keiser University and its wonderful DMS instructors prepared me to enter this career with a skillset unlike any other. Because of this incredible education I was hired immediately after graduation and have continued to grow in my field, most recently landing a promotion of supervisor of the Ultrasound department in one of the top healthcare organizations in South Florida. In my field I've had the opportunity to work with students and technologist from a variety of institutions and I'm always delighted and proud to see KU students and grads leading not only in skillset but professionalism as well as productivity. As I embark in my new role as a team lead I'm looking forward to working closely with KU students and graduates to ensure they too can thrive in the wonderful field of Ultrasound.

Sincerely,

Barbara Rodriguez RDMS, RVT, RDCS
