To Whom It May Concern:

Keiser University is an important part in our community by providing collaborative partnerships with non-profits, such as ours, a positive place for kids.

The Boys & Girls Clubs of Manatee County appreciates the support Keiser University gives to their students by providing our job openings and informing the students about the opportunities for growth or a possible career with our organization.

Keiser University has benefited our business by sending potential candidates to apply for positions, whether it is a current student or a graduate. Our keys to success are met by bringing in candidates that can provide our kids to have a magical Club experience which then leads towards changing and even saving their lives. We believe Keiser University can provide those candidates.

Keiser University is a valuable resource available to our organization and we appreciate all of their support to help our organization thrive with the best candidates to help kids that "need us most". Great futures start here!

Sincerely,

Nicole L Gockley
Human Resource Director
