To Whom It May Concern:

Please accept this letter as a glowing endorsement of Keiser University Lakeland Campus and the support it provides to our community constituents. We have worked with the University for over __ years, and as such, we understand the contributions that it makes to their students, their graduates, our organization, and our community.

We continuously collaborate with Keiser University in different ways, for example:

- Working with their faculty and staff members as peers on several community boards, panels, and projects. Likewise, we work collaboratively with them to ensure that Polk County has a well-trained, career-ready workforce to not only fill open requisitions but to build and retain a talented pool of high-skill, high-wage employees that will bring benefit to their communities.
- As we may have hired their students or graduates, we have had the pleasure of watching these employees grow and flourish within the local workforce. These candidates have come to us with excellent career-related skills, exhibit professionalism, and outstanding soft skills. This combination proves to be a necessary component in recruiting, on boarding, and maintaining a talented workforce that benefits not only our organization but also our communities.
- Providing internship, externship or clinical training opportunities to their students, helping them to connect their education with real-world, hands-on training and experience. These opportunities help to prepare students for competitive positions in their chosen fields.

CareerSource Polk has been in business for 22 years supporting all areas/communities of Polk County and serving close to 75,000 customers. We fully support Keiser University in their efforts to enhance the education of our constituents. Please contact me if you require additional information or have any questions.

Kind regards,

Stacy Campbell-Domineck
President/CEO
