To whom it may concern,

I, Frank Oriol, X-Ray supervisor at Center For Diagnostic Imaging (CDI), am writing this letter in support of Keiser University. As a Keiser University Board member for over 5 years and a fellow graduate from the radiology program, I have a high level of rapport and companionship with the school.

To begin with, Keiser has had a marvelous relationship with CDI for over a decade. CDI has been around for over 30 years, having 3 different locations throughout south Florida, and focuses on providing radiological services alongside the highest possible level of care to patients. Keiser has continuously helped our company to achieve its goals as we are an externship site who have had a vast amount of students perform their rotations at this site.

Keiser University ensures that students are properly trained and prepared to excel during their rotations. The quality of work and skills that Keiser students provide is unmatched to other schools with the same program. Due to this we have hired multiple Keiser graduates most of whom have been students at CDI during their time within the program.

Keiser truly does add value to our site as well as the community by correctly and professionally ensuring all their graduates are qualified to render services to the public. I am glad to be able to showcase the importance of Keiser as well as continue to work alongside students and keiser trained hiree's.

Sincerely,

Frank Oriol

X-ray Supervisor

Center For Diagnostic Imaging

A handwritten signature in black ink, appearing to read 'Frank Oriol', written over a light blue horizontal line.
